Prize.

The fifty odd Alexandria firemen left shortly after 9 o'clock this morning for Lexington, Va., to attend the annual meeting of the Virginia State Firemen's Association which will convene Wednesday. The opening exercises will begin Tuesday night when the lights are flashed on. A large crowd gathered on Henry street to see the firemen entrain. The Alexandrians plan to return home Saturday. Several firemen who were unable to go this morning plan to leave tomorrow. The fire bells were turned loose at 8 o'clock this morning when the firemen left the engine houses. The Columbia Company carried along with them their old hand reel. Decorations for this reel have been painted by Lucien Duffey, of this city, a well known scenic artist, a member of the Columbia Company. The reel will be decorated after it arrives in Lexington and in the big parade Thursday the reel will be drawn by all of the Alexandria firemen attending the convention and the Columbia boys have high hopes of capturing a prize.

Suit for \$25,000.

Alexandria Attorneys Represent
Plaintiff.

A suit for \$25,000 damages for alleged personal injuries was filed Saturday in the District Supreme Court by Oscar C. Miller against the Washington Terminal Company and James C. Davis, general director of railroads. Plaintiff, represented by Attorneys Leo P. Harlow and F. G. Duval, alleges that he was employed as brakeman by the defendant company, and that while in that capacity, August 22, 1919, he was standing on the forward spring hanger of a locomotive it broke, injuring him seriously and permanently.

Enjoy Outing.

Fifty-one Members of Columbian
Players Spend Day at
Benedict, Md.

Greeted upon their arrival at Benedict, Md., by a committee of the leading citizens of that municipality, the Columbian Players yesterday put in a "real day" at the popular Southern Maryland seaside resort. No chronicle of the Columbian Players has in the past revealed such an amount of genuine pleasure as was enjoyed yesterday by the fifty-one members of the Columbian party and in years to come it remains without stating that the recollection of the Columbian Players' outing at Benedict will afford memories of an occasion the likes of which are not frequent in occurrence. It took seven large and high powered motor cars to transport the party to their objective, and the ride over the hills and through the valleys enroute formed a beautiful introduction to the enjoyment that were to follow in the continental sequence throughout the day. The real pastime of the day centered around the aquatic joys of the members of "The Columbian Million Dollar Chorus," who in fitting and beautiful bathing suits plainly displayed their keen appreciation of the pleasures that were afforded by refreshing salt water bathing. A wonderful country feed in the large dining hall of Hotel Messick was a veritable banquet, and following this as the concluding feature of the day's program the party all joined in motor boat rides around the bay in the vicinity of Benedict. The party returned home last evening, shortly before 10 o'clock. The Columbian Players Friday night elected the following to head the organization for the coming year: Norris N. Roland, director; C. M. Forgan, honorary president; W. A. DeVaughan, president; Mrs. Mildred Downham, vice president; Miss Marion Griffith, secretary; M. P. Desmond, treasurer; Rev. Louis Smet, chaplain; George J. Jaeger, musical director.

USERS OF GAS ARE ASSURED

Motor Fuel's Quality Higher
and Price Lower Sur-
vey Shows.

SUPPLY IS AMPLE

Consumption Increasing But Production Also Gaining—Stocks On Hand Greater.

Washington, Aug. 22.—Further comfort is afforded the automobile, motorboat and farm tractor owner, as well as automotive industry in general by the Bureau of Mines of the Department of the Interior, which announces, following its fourth semi-annual survey of the American gasoline supply, that there is not only a vast surplus of this product in the country, but the quality has improved and the price is uniformly lower.

A few weeks ago the Geological Survey, of the same department of the Government, made public a statement showing that recently developed processes for extracting gasoline had banished all fear of a gasoline famine in this country, but that agency did not go into the question of prices or the quality of the supply now on the market.

It appears from the survey just completed that the average price of gasoline in nine consuming districts of the country, the central points of which are New York, Washington, Pittsburgh, Chicago, New Orleans, St. Louis, Denver, Salt Lake City and San Francisco, dropped from 28.2 cents in July, 1920, to 21.2 cents in July, 1921, a difference of 7 cents a gallon.

In the Washington-Baltimore-Richmond district, motorists paid an average of 28.5 cents a gallon for gasoline in July of this year, a difference of 6.5 cents a gallon. This product sold as high as 31.5 in Salt Lake City a year ago and is selling as low as 17.4 cents a gallon in St. Louis now, a difference of 14 cents a gallon comparing the highest with the lowest markets for the two years.

In spite of this drop in price, the bureau points out the quality of gasoline today is much better than it was last summer. In fact, the average gasoline on the market at the present time is almost identical in quality with the average sold last winter.

Consumption of gasoline continues to increase heavily in the United States, the report shows. But production is increasing even more rapidly.

Good Attendance At Service
In Grove.

The first of a series of community services was held yesterday morning in the grove of the Theological seminary on Seminary Hill. The Rev. Dr. Rollins officiated. There was a large attendance. The public is invited to these services and it is hoped that many will take the opportunity to attend next Sunday, a notice of which will be published later.

During the first five months of 1920 a total of 1,763,122.74 gallons of gasoline was the measure of the nation's output. During the first five months of 1921, however, a total of 2,148,199.154 gallons was produced, an increase of 385,076.880 gallons. Imports for these periods decreased 3,178,511 gallons.

The domestic consumption during the five months of 1920 amounted to 1,480,665.063 and for the first five months of 1921 the consumption was 1,553,665.016, or an increase of 138,130.953.

Stocks on hand in storage at the refineries at the end of May, 1921, amounted to 800,495,787 gallons, as against 577,671,795 at the end of May, 1920, an increase of 222,823,992 gallons.

Commenting on the figures, the bureau says: "It is only when we look at production figures that we find the explanation. Production of gasoline for the first five months in 1921 was almost 400,000,000 gallons greater than for the same period in 1920. Imports were less, but the increase in the total income of gasoline much greater than the increase in the total output."

Referring further to the results of the recent survey, the bureau says: "The increase noted in production and in stocks are sufficient to explain the drop in price and the improvement in volatility. It is interesting to note, however, that there is no uniformity in the relations throughout the country. Some cities show improvement in quality and little change in price, while in others the gasoline is similar to that sold a year ago, but the price has dropped markedly."

Philadelphia, Aug. 22.—A force of 400 marines embarked from here today on the U. S. S. Pennsylvania for duty in Panama.

The decision to augment American forces already in the Canal Zone was reached so suddenly that officers at the navy yard were not ordered to prepare supplies until yesterday when rush orders were received by telephone from the Navy Department in Washington.

The Pennsylvania was used for transportation of the force in order to expedite its arrival in Central America. That vessel was en route from New York to Pacific waters and was ordered by wireless yesterday to proceed to Philadelphia and receive the contingent.

The Pennsylvania was stopped at the Delaware Breakwater and the marine companies, which arrived at the Philadelphia navy yard shortly before noon today, were taken directly from their trains to the warship. It is expected she will sail shortly after midnight tonight.

Large quantities of supplies had preceded them. Navy yard forces worked until late last night loading lighters with equipment for a prolonged stay.

The marines were sent here from their base at Quantico, Va., and, as indicating the speed with which the force was got together, officers pointed out that no company had its original complement of men, recruits having been drafted indiscriminately.

PANAMA GETS LAST WARNING

Troops Sail Under Secret
Orders To Reinforce
Costa Rica's Authority.

NOTE SENT TO PANAMA

Disputed Region Will Be Placed Under
Control Marines From Philadelphia and Quantico.

Washington, Aug. 22.—American tolerance of Panama's defiance of the White award in the territorial dispute with Costa Rica has ended. The Panama Government has been notified by the State Department that Costa Rica will proceed at once to take over disputed territory.

To guarantee Costa Rica protection in the execution of the terms of the territorial award, the United States has ordered a full battalion of marines to Panama.

Officials explained tonight that the marines have been ordered to the Panama-Costa Rican border to police the territory while officials of the Costa Rica Government are taking charge of the section which Panama has refused to concede in the face of arbitral decisions against her.

After despatch of a State Department note to Panama a battalion of marines secretly left the Quantico barracks last night for Delaware Breakwater, where they boarded the battleship Pennsylvania, which will rush them to Panama. Arriving in Panama the marines will take charge of the disputed territory in the Coto region of Panama while Costa Rica is assuming control. If attacked by the troops of Panama the marines will be reinforced and the change of jurisdiction compelled by American arms.

The Government of Panama was notified by Secretary of State Hughes on August 18 of the unalterable determination of the United States that the arbitration award ceding disputed boundary territory to Costa Rica must be accepted by Panama.

For years Panama and Costa Rica have been at swords' ends due to Panama's refusal to give up the Coto territory, and actual war between the republics broke late last winter, when Costa Rica sought to take the ceded territory. Diplomatic intervention by the United States brought the hostilities to an end and Secretary Hughes immediately after assuming office sought to induce Panama to accept the arbitral decision. Panama appealed to Washington for reopening of the case, but this was refused.

Philadelphia, Aug. 22.—A force of 400 marines embarked from here today on the U. S. S. Pennsylvania for duty in Panama.

The decision to augment American forces already in the Canal Zone was reached so suddenly that officers at the navy yard were not ordered to prepare supplies until yesterday when rush orders were received by telephone from the Navy Department in Washington.

WASHINGTON DAY BY DAY

(From Our Special Correspondent.)

Washington, Aug. 22.—In order to prepare for the Congressional elections to be held a year from next November, the Democrats are already laying definite lines for this contest at the polls.

George White, Chairman of the Democratic National Committee, during a recent visit to Washington let it be known that he is contemplating calling a meeting of the committee for some time during the first part of October. At this meeting plans will be formulated for the campaign which will be waged a year hence for control of the House of Representatives. Mr. White feels greatly encouraged at Democratic prospects two years hence especially in view of the mess which the Republicans in both Senate and House have made of the trust imposed in them by the voters of the country.

President Practicing Golf.

President Harding is busy on the golf links practicing up for the newspaper men's tournament which will take place on Washington's free golf course starting on Thursday. The President seldom appears on the course except late in the evening, about half past five, which gives him just about enough time to finish nine holes before it becomes too dark to see the ball. George Christian, Jr., his Secretary, usually plays with him as do Senators Hale, of Maine, Kellogg, of Minnesota, and Frelinghuysen, of New Jersey.

Probable Peace With Germany.

It is expected that a treaty of peace with Germany will be signed in less than week. This is the information given to the Gazette correspondent today by Senators who are close to the administration. Extraordinary powers to sign the treaty on behalf of the United States have been transmitted to Ellis Loring Dresel, American High Commissioner at Berlin by President Harding. It is said, along with the draft of the treaty that this government wishes signed. Any delay that may ensue will be because of the German government and not because of the United States which has already accepted the pact in possession of Mr. Dresel and which has indicated that it will make no concession from this draft. According to the State Department the treaty will meet "general satisfaction" when its terms are announced.

Difficult to Extradite Bergdoll.

While it will be impossible for the United States to effect the extradition of Grover Cleveland Bergdoll, draft dodger, if he has reached Switzerland, his extradition may be effected from almost any country in the world if the British government can show that he has been indicted in Canada for an offense covered by extradition treaties. It is said that Great Britain's extradition treaty would permit that government to extradite Bergdoll from almost any nation in the world if it can be shown that he has been guilty of obtaining fraudulent passports by perjury.

Wholesale Beef Selling Cheaper.

According to the Washington office of the Institute of American Meat Packers beef at wholesale is selling cheaper now than it has at any time during the last five years. Although dressed beef from fancy cattle has not declined proportionately to other grades because of the limited quantity available, yet the bulk of the supplies have declined to such an extent that the average wholesale price of dressed beef carcasses throughout the East is lower than it has been since 1916.

The Alexandria housewife will be interested in this statement from the association representing the big beef packers of the country. If the wholesale price of beef has declined to such an extent, it seems only reasonable that the retail price, in which she is interested, should be subject to a corresponding drop. There has been much criticism of late that the retailers of beef were the ones responsible for present high prices and the showing made by the Institute of American Meat Packers at least puts the burden of proof upon the retailers.

WHISKERS INVADE WOMEN'S FACES CIGARETTES AND DRINKS BLAMED

Paris, Aug. 22.—Beards and mustaches are increasing among women annually, the doctors blaming cigarette smoking and alcohol drinking principally for this phenomenon.

Statistics at hospitals are said to show 11 per cent. of the women inmates have an abnormal growth of hair on the upper lip and chin, and 27 per cent. of the women inmates in the insane asylums are bearded.

Paris society women are agitated at the statements of leading Paris savants that tobacco and alcohol are conducive to "unsightly hair. Leading beauty doctors assert that a big percentage of their clientele continually are under treatment, the hair roots being electrically burned out or otherwise eradicated.

Recently it was announced a new treatment, applying oment to the skin which ate away to the hair, had proved dangerous to the skin, ruining the complexion of women who used it a while.

"One of the principal reasons why the new fad of yellow ochre face powder was adopted so quickly is because so many women are afflicted with little mustaches," said Felix, a leading Rue de la Paix beauty specialist.

TODAY'S THOUGHT Let the soldier be abroad if he will, he can do nothing in this age. There is another personage—a personage less imposing in the eyes of some, perhaps insignificant. VIRGINIA: MOTHER OF PRESIDENTS

Once, in the history of Virginia, she was known as the "mother of presidents." The first and greatest was bone of her bone and flesh of her flesh. Jefferson, Madison, Monroe, Harrison, Tyler, Taylor, Wilson, all are claimed by her as native to her soil. A list greater than that of any other state! We are loath to believe that the blood of the Old Dominion has deteriorated. That the breed that has furnished this great Republic with so many of its chief executives has died out. In fact, we do not believe it!

Unless we are greatly mistaken, there is a young man, now looming large on the political horizon, who is of the right presidential stuff. A young man, who, thus far tried, has not been found wanting. Who is of the best Virginia stock; and by this, we do not mean necessarily of a distinguished ancestry, noted in the annals of the Commonwealth for many generations past—but rather of the selfsame country squirearchy that gave to the nation its Washington, its Jefferson, and its Marshall. This is, and always has been, the best blood in the state. We would go still further, and say that while no great name in American history has ever claimed descent from the British aristocracy, or from any aristocracy; and while a very few have arisen from the humblest of origins—the great majority have come from what we choose to call the country squirearchy—whether north or south or east or west! This is the class which made England great; and from this class have been drawn those who have made American history glorious.

We are of the opinion that so far as the United States is concerned the lines of latitude and longitude were largely erased from the political map by the late world war. They began to disappear in the Spanish-American conflict; and when another decade shall have rolled around, we believe they will have entirely disappeared.

If then, Governor Trinkle shall have made the governorship of Virginia what we believe he will make it. If he shall have turned the eyes of the nation upon the Old Dominion as he writes a new chapter in state government—as did a certain Virginia city in municipal government—he is certain to be looked upon as a presidential possibility.

We have another reason for believing this—we could not call it an argument since it is purely personal. There are certain men, from time to time appearing on the political horizon, who seem to bear the impress of a destiny working from without. Who seem to be, not the creatures of fate precisely, but of certain invisible forces beyond their ken or control. They may be said to be possessed of the Spirit of the Times that through them works upon their fellow-men. We are of the impression, from what we have seen and know of Lee Trinkle, that he is one of these men of destiny. If he shall serve two terms as governor of Virginia, and reform state government, we shall be convinced of the correctness of our theory. By that time, as we have said, geographic lines will cease to be drawn in a presidential campaign. The country will look to the man and not to the state. It will consult biography and not geography.

Virginia has the breed to produce the man. That is beyond cavil. And in our opinion Lee Trinkle is of that breed.

Every effort was made to keep the destination of the forces a secret and navy yard officials declared not even officers commanding knew the exact duty they were to perform upon their arrival in the Canal Zone.

IN MEMORIAM

In sad but loving remembrance of my dear husband, James P. Bradfield, who departed this life one year ago today, August 22, 1920.

Today recalls the memory
Of the loved one laid to rest,
And the one who thinks of him the most

Is the one who loved him best.

A shadow rests upon our home,
I miss your well loved face,
Where'er I turn where'er I look
I see your vacant place.

EXORBITANCY OF THE TONGUE!

[Editorial.]

The following ancient law of the Province of Massachusetts Bay was enacted in 1672, and has never been repealed. We wish it was extended as far south as the city of Washington, so that its virtues might be applied to such clamorous scolds as Wright, Fisk, D. R. Williams et al.

"SCOLDS. Whereas, there is no express punishment (by any Law hitherto established) fixed to the evil practice of sundry persons by Exorbitancy of the Tongue, in railing and scolding,

IT IS THEREFORE ORDERED: That all such persons, convicted before any court or magistrate, that hath proper cognizance of the case, shall be gagged, or set in a ducking stool, and dip over head and ears three times in some convenient place of fresh or salt water, as the court or magistrate shall judge meet.

1813 JOKE!

A very slender man met a brother skeleton during one of the late hot days, and said to him, "this is enough to melt one." "To calcine one we should say," replied the other.

AMERICAN LEGION

State Gathering at Norfolk September

Slight changes have been made in the program for the third annual convention of the Virginia department of the American Legion, which will be held in Norfolk on September 1, 2 and 3 and which is expected to be one of the greatest gatherings of former service men in Virginia or neighboring states this year.

On the second day of the convention which previously had been left open strictly for business, there will be a big ball and fireworks display in the evening, and in addition to delegation has gone to Washington to invite President Harding, Secretary of Navy Denby, and Theodore Roosevelt, Jr., Assistant Secretary of Navy, who was one of the organizers of the American Legion in France.

With these men speaking on the evening of the second day, those in charge of the convention plan to make it a big patriotic and civic celebration, which will be held in the open air. Instead of going to Virginia Beach on the third and closing day of the meeting, the delegations will be entertained at Ocean View, which is believed to be the best seaside resort for the occasion.

Elaborate preparations are now in progress in Norfolk for the convention, and arrangements have been worked out by the merchants and others of that city for decorating the principal streets. Delegates from every section of the state will be present, and for the first time, individual members of the Legion are being urged by the department officers to be present this year and participate in the deliberations of the convention.

Alexandria Post No. 24 will be represented at this convention by Capt. George H. Evans and Gilbert Cox, Jr., while O. A. Reardon goes on committee from Eighth Congressional District.

MINISTER TELLS OF WIFE'S CASE

Thinks It Only Short Time Before Mrs. Sykes Will Be Fully Restored.

Rev. A. H. Sykes, former pastor of the Watkins Park Presbyterian church, Nashville, Tenn., says:

"After seeing what Tanlac has accomplished in my wife's case, I am convinced that it is a medicine of great power and extraordinary merit. I do not think I have ever seen anything to give such prompt results. Mrs. Sykes had been in delicate health for ten months, suffering from stomach trouble and nervous breakdown.

"I frequently sought medical advice but Tanlac is the only thing that gave her any relief. After taking the medicine only a short time, she was able to sit up and help with the household duties. I think it only a short time until her health will be fully restored."

The Best Insurance Is the Cheapest Insurance

This is a fact that has been questioned and proven time after time. Many people have gone on the supposition that cheap insurance was good protection—just so they held a policy covering their belongings.

The majority of these same people have found out by actual experience that cheap insurance is no better than no insurance. They have come to the crisis and have then found the insurance company wanting in its settlement of the claim.

We represent only the highest class of fire insurance companies and for a few dollars can give you an insurance policy that is as safe and sound as money in the bank. Should anything happen to any of your household goods, your home, your automobile or other personal belongings, we immediately check up on the value of the articles destroyed or stolen and in a very short time, you are reimbursed.

Don't put your faith in wooden or brick houses or in tightly locked garages. What man can do in the way of building or in the manufacture of locks as protection against thieves, some other man can undo and without any warning whatsoever, fire destroys or thieves enter and steal the possessions nearest your heart. Come in to see us today and give us the data to fix up that insurance policy for you.
